

The Israeli-American Council (IAC) stands shoulder-to-shoulder with the Wilshire Boulevard Temple after Wednesday's despicable disruption by anti-Israel protestors of an event promoting bridge-building and dialogue between the Jewish, Israeli, and AAPI communities.

We have reached out to the synagogue and expressed our solidarity with their community.

We are aghast that antisemitic attackers continue to target our religious institutions under the guise of anti-Israel protest. As Americans, we all should be free to worship as we choose without fear of discrimination and violence. We Israeli-Americans and Jews continue to stand proudly and will not allow such detestable antisemitic attacks to intimidate us.
